## EXPERIENCE

### FRONTEND WEB DEVELOPER
**Jirka IT Solutions**
**Agosto 2022 - Present**

- I designed and developed modern user interfaces using frameworks such as React.js and Angular, HTML5, CSS3.
- I created accessible, responsive, and functional user interfaces that allow users to have the same experience on different devices.
- I collaborated in teams to design, structure, and implement web applications from start to finish while maintaining existing websites.
- I implemented and worked with internationalization in web applications, using modern standards that enable dynamic language switching.
- I learned to use different templates and libraries to streamline the design/development process of web applications.
